## Obituary.

Henry Anisley was born in Bradford Co. Yorkshire England, June 11 1844. He came to America in 1870. Remained here two years then returned to England. After three years spent there he decided that America was the better land for for which he sailed.

He was married to Miss Diana Farnace of Durham Co. Eng. Jan. 28th 1867.

This union was cemented by several children, seven of which have crossed the threshold of the land beyond. It has been but the space of 2 months since its portal closed upon the footfall of its eldest son. His faithful wife to whom he was devoted, preceded him but seven. After her death he was heard to remark that his own time on earth was short. Yes even shorter than he predicted.

His life here closed Feb. 19th, 1900.

Mr. Anisley was a peaceable citizen of the quiet little hamlet known as Orbiston.

He sought a livelihood by delving for one of the necessary hidden treasures of the earth.

He was a kind father, proud of his family and mindful of the poor.

Five daughters and three sons are left to mourn their heavy loss.

First a mother then a brother and then the father all in the short space of seven months. Why has Death's darts so incessant in their destruction? Yet thy will O God be done in all things. We have but to become reconciled to it and say with the poet "Whatever is, is best." Yet we hope that thy missiles, O Death, shall cease to diminish the number in our ranks so speedily.

CARD OF THANKS

We desire to thank our friends and neighbors for their many deeds of kindness during the sickness and death of our Father.

The Anisley Children.

OUR GLORIOUS COUNTRY.

Have you watched its marvelous growth? If not, The Weekly Enquirer wants to study the strides it has made. The first census of the United States was taken in 1790. Since then every succeeding ten years. The result has been as follows:

Year.	Population.	Year.	Population.

1850	23,191,876		

Here you have the figures of a basis of calculation. The problem now is: What will be the population of the United States, excluding recent acquisitions. The result is usually announced in July of the census year. The WEEKLY ENQUIRER is anxious to engage all in a study of their country. To this end it will distribute cash amounting to \$25,000, for solutions received of the population of the United States Census, as follows:

To the first nearest correct guess received.	\$3,000.00

To the sixteenth.	.39
To the seventeenth.	.19
To the eighteenth.	.09
To the nineteenth.	.05
To the twentieth.	.02

2197 cash presents amounting to \$25,000.00

In case of a tie, money equally divided.

Every guess on the above proposition must be accompanied by a year's subscription to the WEEKLY ENQUIRER.

You can guess as often as you care to include subscription price to the WEEKLY ENQUIRER.

This contest will close a month before the result of the census will be known and officially certified by the Director of the United States Census at Washington, D. C.

Subscription price for the WEEKLY ENQUIRER (including guess) is only \$1.00 a year. Eleven copies and eleven guesses for \$10.00. For full particulars see WEEKLY ENQUIRER.
